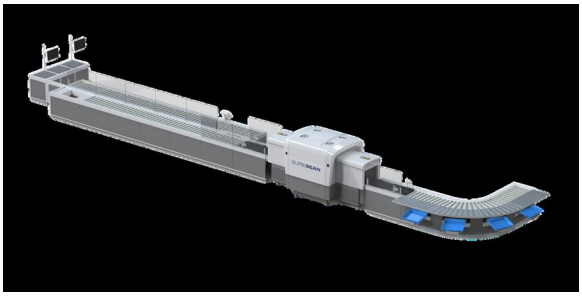
TRAY RETURN SYSTEM

SureFlow

in partnership with SureScan



Modular, scanner-agnostic tray return that future-proofs any checkpoint.

KEY BENEFITS

- Modular & customizable — any checkpoint layout
- Scanner-agnostic — works with existing screening tech
- Fast plug-and-play maintenance access
- Accessible and passenger-friendly design
- Installs in under 5 working days

ABOUT

SureFlow is a next-generation tray return system that streamlines airport security checkpoints. Modular design lets operators combine divest, screening and redress modules to match any layout. Scanner-agnostic integration, thoughtful ergonomics and passenger-friendly details deliver higher throughput and better accessibility.

KEY FEATURES

- Divest, screening, and redress modules
- Height-adjustable tables and heavy-duty drawers
- Noise-dampening construction
- Hidden cabling and integrated scanner mounts
- Fast, durable tray dispenser with a single wear part
- Configurable design surfaces and panel colours

SPECIFICATIONS

SPECIFICATION	DETAIL
Installation time	< 5 working days
Integration	Scanner-agnostic (compatible with major OEM scanners)
