

Accurate, high-throughput weapons detection for the world's strictest security standards.

KEY BENEFITS

- › Detects all metallic threats including non-magnetic alloys
- › 60 localisation zones pinpoint where the threat is carried
- › Very low nuisance alarm rate keeps queues short
- › IP66 control unit handles indoor and outdoor use
- › One-touch automatic install – ready in minutes

ABOUT

The HI-PE Plus is an enhanced multi-zone walk-through metal detector that accurately detects ferrous, non-ferrous and stainless-steel weapons – including items concealed in body cavities – while ignoring everyday personal effects. Certified to international EMD standards, it delivers high transit rates with very low nuisance alarm rates.

KEY FEATURES

- 60 localisation zones (20 vertical x 3 lateral)
- Met-Identity technology identifies threat composition
- Up to 50 built-in security programs + custom levels
- Chip Card system for quick, secure parameter changes
- 4 multi-zone display bars, programmable stop/go
- Quick reset (0.2 s) for high throughput
- Automatic environmental noise & vibration compensation
- Ethernet, Bluetooth, RS-232 and Infrared communications
- Integrates with NetID Anywhere cloud management

SPECIFICATIONS

| SPECIFICATION | DETAIL |
|-----------------------|--|
| Passage width | 28.3 in / 32.3 in |
| Overall width | 32.9 in / 36.8 in |
| Overall height | 88.4 in |
| Power supply | 100–277 V AC ±10%, 47–63 Hz, 40 VA typical |
| Operating temperature | –4°F to 149°F (–34°F to 158°F on request) |
| Storage temperature | –34°F to 158°F |
| Relative humidity | 0–95%, non-condensing |
| More specs | Available in the full brochure (QR ↘) |
