

Compact ARFF for regional and secondary airfields — full Lion firepower in the smallest configuration.

KEY BENEFITS

- › True pump-and-roll — foam on the move
- › Composite superstructure + polypropylene tanks
- › WG 9000 SE roof turret — 110 m reach
- › Modular cab seats 1 + 4 firefighters
- › Caribbean corrosion and climate package

ABOUT

The Volkan Lion 4x4 packages the same Volkan-engineered fire-suppression stack as its larger siblings into a chassis sized for Caribbean Code 2–6 airfields. A lightweight composite superstructure and polypropylene hidden tanks keep GVW under 28,000 kg without sacrificing agent capacity, and true pump-and-roll lets the crew apply foam from the moment they roll toward an incident. Allen + Co. specifies each Lion 4x4 with tropicalised electronics and commissions on-island with Caribbean-trained technicians.

KEY FEATURES

- 6,200 L water / 800 L foam tanks
- MFPN 10-8000 Volkan fire pump
- WG 9000 SE roof + WG 2000 SE bumper turret
- 250 kg DCP auxiliary agent
- Optional 15.2 m Snozzle® HRET
-

SPECIFICATIONS

SPECIFICATION	DETAIL
Configuration	4x4 ARFF
GVW (max)	Up to 28,000 kg
Dimensions (L x W x H)	10,500 x 3,000 x 3,860 mm
Engine / Power	Scania DC16 · 710–770 HP
Transmission	ZF-7 speed full automatic
Water / Foam tanks	6,200 L / 800 L
Fire pump	MFPN 10-8000 (8,000 L/min)
Cabin capacity	Up to 1 + 5 firefighters
