

Mid-tier ARFF for international gateways — 12,500 L of water and the full Lion-class turret stack.

KEY BENEFITS

- › 12,500 L water + 1,500 L foam on-board
- › MFPN 10-10000 pump with WG 9000 SE turret
- › True pump-and-roll for sub-minute response
- › Composite superstructure keeps GVW ≤ 42,000 kg
- › Caribbean corrosion and climate package

ABOUT

The Volkan Lion 6x6 is the backbone of the Lion family — a Category 8–9 apparatus for international gateways where large-body traffic demands serious agent capacity. The MFPN 10-10000 pump drives the WG 9000 SE roof turret at 9,000 L/min with 110 m reach, backed by 12,500 L of water, 1,500 L of foam and 250 kg of DCP. Composite bodywork keeps GVW under 42,000 kg. Allen + Co. specifies the Lion 6x6 with Caribbean corrosion and climate packages and commissions every unit on-island.

KEY FEATURES

- 12,500 L water / 1,500 L foam tanks
- MFPN 10-10000 Volkan fire pump
- WG 9000 SE roof + WG 3000 B SE bumper turret
- 250 kg DCP auxiliary agent
- Optional Snozzle® HRET with fuselage tip
-

SPECIFICATIONS

SPECIFICATION	DETAIL
Configuration	6x6 ARFF
GVW (max)	Up to 42,000 kg
Dimensions (L x W x H)	12,500 x 3,000 x 3,860 mm
Engine / Power	Scania DC16 · 710–770 HP
Transmission	ZF-7 speed full automatic
Water / Foam tanks	12,500 L / 1,500 L
Fire pump	MFPN 10-10000 (10,000 L/min)
Cabin capacity	Up to 1 + 5 firefighters
